HP Professional Business Paper, Glossy, 48 lb, 8.5 x 11 in. (216 x 279 mm), 50 sheets	6MF93A

Why choose HP Papers?

HP offers a broad portfolio of papers that are uniquely designed, FSC® certified,¹ and deliver high-quality, reliable results. Print stunning color photos and professional documents on papers certified by the Forest Stewardship Council.^{®1}

QUALITY

Print on HP Papers to get it right the first time. HP Papers deliver high-quality photos and documents that stand out from the rest.

PERFORMANCE

HP Papers are engineered to rigorous performance standards to help ensure consistent output, resist jams, and prevent curling. And combined with Original HP Toner or HP Ink, your prints can be exceptional.

FSC®-CERTIFIED¹ HP PAPERS

FSC®-certified¹ HP Papers are sourced from sustainably managed forests according to Forest Stewardship Council® standards. And when you're done, you can recycle your prints.²

CHOICE

We've got you covered. HP Papers are manufactured in various weights, sizes, and finishes for important or everyday projects. Whether printing with toner or ink, the HP Papers portfolio gives you choices to meet your printing needs.

HP print ecosystem

One brand. One solution.
For optimized
print performance.

HP Papers, HP printers, and Original
HP Toner or Ink are designed to work
together for stunning photos, professional
documents, and reliable printing.

hp instant ink

With Instant Ink, save up to
50%³ on ink and print your
photos even more affordably
at home.

Environmental highlights of HP Papers

The “HP sustainable paper and wood policy” guides our approach to environmental practices throughout the paper lifecycle.⁵

FSC®-certified¹ HP Papers

FSC®-certified¹ HP Papers are sourced from sustainably managed forests according to Forest Stewardship Council® standards.

Recyclable prints²

Most HP Papers are recyclable.² When you're done, deposit prints in a recycling bin—it's easy and can make a big difference.

Recycled content

HP Photo Papers paperboard packaging is made from 100% recycled content, minimum 35% post-consumer content.

HP Photo Papers technology

Customers choose HP Photo Papers for many different reasons. One key reason is that they are designed with HP Inkjet printers to deliver consistent, quality results and a great printing experience. HP Photo Papers also work with select other printer brands based on inkjet technology.

HP Photo Papers for inkjet are made with multiple layers to provide high-quality prints.

1 **BOTTOM RESIN COATING LAYER**
A resin coating with anti-static coating layer is added to provide a moisture barrier to the photobase, and help prevent paper from curling.
Protects the photobase paper from elements (e.g., water and humidity). Minimizes curling. Controls static for improved sheet feed.

2 **PHOTOBASE PAPER LAYER**
The photobase paper layer provides stiffness, strength, and a bright background for high contrast.
Provides stiffness, thickness, and strength. White and bright for high contrast.

3 **TOP RESIN COATING LAYER**
An additional resin coating layer is added to provide a smooth surface and a moisture barrier to the photobase. This layer is also responsible for the gloss or matte finish.
Provides a smooth surface. Protects the photobase from water and humidity. Creates gloss or matte finish.

4 **INK RECEIVING LAYER**
The micro-porous coating layer quickly absorbs the ink and provides great image quality, with humidity and water resistance.
Where ink hits and is absorbed.

5 **FINAL TOP COAT**
At the very top is the final top coat, which provides an enhanced glossy finish.
Enhances gloss. Provides image clarity and durability.

HP Photo and Business Papers applications

QUALITY PHOTO PAPERS DESIGNED FOR INKJET PRINTERS

HP offers a range of photo papers designed to fit your photo project ideas.

- ✓ HP Everyday Photo Papers offer an excellent value and are appropriate for casual photos, student projects, or crafts.
- ✓ HP Advanced Photo Papers are ideal for scrapbooking, photo albums, and framing, and deliver great all-around performance.
- ✓ HP Premium Plus Photo Papers are optimized to deliver top quality for prints used for framing or gifts.

QUALITY BUSINESS PAPERS DESIGNED FOR LASER, INKJET PRINTERS

HP offers a variety of business papers, designed with your business projects in mind.

- ✓ HP Everyday Business Papers are ideal for financial documents, business plans, and business reports.
- ✓ HP Enhanced Business Papers provide standout results for sales presentations, brochures, and proposals.
- ✓ HP Professional Business Papers produce print-shop quality for flyers/handouts, brochures, and point-of-sale collateral.

ColorLok[®] Technology

ColorLok[®] papers enhance printing performance and quality. All HP Home & Office Papers are designed with ColorLok[®] Technology.

How it works

ColorLok[®] papers provide more uniform ink coverage for improved text and image quality.

Papers with ColorLok[®] Technology react with colorants to keep them near the surface.

Paper surface and cross-section images

Without ColorLok[®] Technology

With ColorLok[®] Technology

These microscopic photos of the paper surface show that conventional paper has holes among paper fibers, where ink falls. Ink deviates from its ideal position, adversely impacting quality. ColorLok[®] papers have no such large holes among fibers.

Without ColorLok[®] Technology

With ColorLok[®] Technology

Conventional paper has an irregular surface, since paper fibers cannot be smoothed perfectly. ColorLok[®] Technology adds a chemical additive on the surface that makes the paper surface extremely smooth, preventing mechanical printing issues, and helping extend printer life.

For consistent, high-quality documents from your office printers and copiers, use papers with ColorLok[®] Technology.

With inkjet printers, see:

The right TECHNOLOGY for HP Papers for everyday use

Improve document quality using inkjet papers with ColorLok[®] Technology:

Vivid colors:⁶

Result in richer, brighter images and graphics.

Bolder blacks:⁶

Result in crisp, sharp text with bolder blacks.

Faster drying:⁶

Documents dry faster, resulting in less smearing.

HP PHOTO PAPERS

HP Matte Photo Paper

▶ WHAT IT IS

- 48 lb (180 g/m²)
- Two-sided matte finish
- Works with inkjet printers; optimized for HP Inkjet photo printers and Original HP Ink

▶ KEY BENEFITS

- Create bright, colorful, 4 x 6-inch photo projects
- Two-sided printing⁷ with no show-through
- Quick-dry prints are ready to frame right away⁸
- Convenient, affordable photo printing at home with HP Instant Ink

▶ WHEN TO USE

- For bright, colorful, 4 x 6-inch photo projects and two-sided printing⁷
- Make custom greeting cards with a photo on one side and a heartfelt message on the other⁷

▶ ENVIRONMENTAL HIGHLIGHTS

- FSC[®]-certified paper¹
- HP Photo Papers paperboard packaging is made from 100% recycled content, minimum 35% post-consumer content
- Recyclable as mixed paper²

PRODUCT #	SIZE / SHEETS
6QH46A	4 x 6 in. (101 x 152 mm) / 25 sheets

6QH46A: Not compatible with HP Sprocket Studio.

For best results use HP Photo Papers print mode.

- Putting graphics on shirts, caps, bags, baby items, and more

PRODUCT #	SIZE / SHEETS
C6049A	8.5 x 11 in. (216 x 279 mm) / 12 sheets

Footnotes

- ¹ HP has a policy for offering Forest Stewardship Council® (FSC®)-certified papers that are sourced from FSC®-certified forests and other controlled sources. HP trademark license code FSC®-C017543, see fsc.org. Sylvamo Corporation trademark license codes FSC®-C168336 (North America), FSC®-C101994 (Latin America). Not all FSC®-certified products are available in all regions, look for logo on pack.
- ² Most HP Papers are recyclable as mixed paper.
- ³ Applicable to North America only. Based on monthly subscription cost of HP Instant Ink 700-page plan without purchase of additional sets of pages compared to cost per page to print ISO/IEC 24711 pages on most in-class, traditional A4 color inkjet cartridge printers and MFPs priced <\$385 AUD, <\$420 CAD, <\$333 NZD and <\$350 USD using original standard-capacity cartridges. Average CPP per country used to determine percent savings versus CPP for HP Instant Ink. Sale prices not considered for this study. HP Ink Advantage printers and printers which only use XL cartridges excluded due to non-standard hardware & supplies model. Keypoint Intelligence September 2021 study commissioned by HP, based on publicly available information as of August 18, 2021. Printers selected by market share in IDC Quarterly Hardcopy Peripherals Tracker – Final Historical 2021Q2. For details: www.keypointintelligence.com/HPInstantInk.
- ⁴ HP recommends printing with the HP app. Requires HP app download available at hp.com/go/mobileprinting. Certain features are available in English language only, and may vary by printer model/country, and between desktop/mobile applications. HP reserves the right to introduce charges for use of functionality facilitated by the HP app. Internet access required and may not be available in all countries. HP account required for full functionality. Fax capabilities are for sending a fax only. List of supported operating systems available in app stores. See details at hpsmart.com.
- ⁵ See “HP sustainable paper and wood policy,” July 2019 at hp.com/paperpolicy.
- ⁶ Based on internal HP testing of Original HP pigment inks on ColorLok® papers vs standard uncoated papers. See colorlok.com.
- ⁷ Automatic two-sided 4 x 6-in (101 x 152 mm) printing from the photo tray is exclusive for the HP ENVY Inspire series. Requires HP app download available at hp.com/go/mobileprinting. Certain features are available in English language only, and may vary by printer model/country, and between desktop/mobile applications. HP reserves the right to introduce charges for use of functionality facilitated by the HP app. Internet access required and may not be available in all countries. HP account required for full functionality. Fax capabilities are for sending a fax only. List of supported operating systems available in app stores. See details at hpsmart.com.
