## Accelerate hybrid work with HP business laptops

## Growing hybrid trends

According to the latest research by Gallup Global Analytics and Research, the future of work is hybrid. Five out of 10 workers now work part of the week at home and part of the week at the office, with three in 10 working remotely 100% of the time.[1] Additionally, Gallup trend lines show hybrid work will continue to increase for the next several years.

The challenge? Worker engagement is often disrupted by slow, outdated devices that cause delays and drain productivity. Gallup estimates low engagement costs the global economy $8.8 trillion a year.[2]

## Plan your hybrid strategy

The most effective way to deal with declining employee engagement is to plan your hybrid strategy. That strategy should include refreshing with the latest HP® devices with Windows® 11, which not only deliver higher productivity, efficiency and device satisfaction — but tighter security, too.

HP premium business laptops, available from Insight, deliver cutting-edge collaboration features in sleek, lightweight devices that keep hybrid teams engaged, connected and happy, no matter where they're working.

## HP premium business laptops deliver:

- **HP Wolf security** — comprehensive, secure, full-stack hardware and software protection
- **Uninterrupted productivity** — extra-long battery life, advanced haptic touch and digital pen inking capabilities
- **Quality collaboration** — advanced audio/visuals/peripherals to support better teamwork
- **Ultimate flexibility** — durable, configurable devices that enable work from any location

HP offers a complete hybrid-ready portfolio with multiple device choices and configurations to fit every kind of modern workplace.

## Narrow your choices

HP is well known for its wide selection of fast, reliable, business-ready devices secured with CPU-enforced isolation technology. But don't let the broad range of choices overwhelm you. Your tech experts at Insight are standing by to discuss your device needs and organizational goals with you to determine which HP devices will best fit into your IT ecosystem — and always at a price you can afford.

## A team you can trust

As a top Fortune 500 Solutions Integrator with close to 40 years of hardware and software experience, Insight experts:

- Have a longstanding relationship with HP and deep understanding of its products
- Stay abreast of the latest, rapidly changing advances in technology
- Advise you based on your specific business needs and goals
- Put your priorities first
- Offer full lifecycle management services to remove the burden from your IT team

# Devices for every type of end user

Whether you need high-capacity devices for data analysis, 3-D imaging or web design — or lightweight devices that help teams collaborate seamlessly from anywhere — HP business devices with Windows 11, available from Insight, deliver the speed, security and efficiency you need for today's increasing work demands.
