Certified Refurbs

Why buy refurbished?

Business challenge

With our certified refurbs, you will find desktops, laptops, monitors and more, from the brand you trust at a more affordable price. With over 1000+ quality certified PCs to choose from, you can shop for the right PC that matches your budget and your computing needs.

Our solution

Our quality-certified PCs went through a rigorous refurbishment process by Microsoft. Each unit is tested in all facets and restored to a new-like state. Microsoft refurbishers follow strict requirements to ensure you receive a high-quality, professionally refurbished device installed with genuine Microsoft windows.

Decommissioning devices with data security in mind cannot be overlooked when disposing of technology. Properly guarding the data stored or accessed from technology devices is paramount. Security breaches can plague consumers and businesses and result in untold economic and personal impact. No matter which refurbished PC you choose from, you can take comfort with the fact that refurbished PCs come with a 12-month limited warranty.

- Quality certified
- Microsoft authorized refurbs
- Buy with confidence

Building a better planet

Production and disposal of computers has a large environmental impact on the planet. Microsoft and Insight recognize these problems with management of end-of-life products and are working together to face the challenges and complexities facing our customers.

Our guarantee

When buying your refurbished computer from Insight, you know you're getting a Microsoft authorized refurbished product. Our quality-certified PCs went through a rigorous refurbishment process by Microsoft. Each unit is tested in all facets and restored to a new-like state. This includes upgrades to the latest components leading to a better experience.
