

Solution Brief

InsightCloud® Care

Maximize your Azure investment with InsightCloud Care — our award-winning program for clients that purchase public cloud solutions.

Many organizations are increasingly using the public cloud to scale architecture, increase compute and enhance security. But rapid growth without the right administration leads to oversized workloads, idle consumption and misspent cloud resources.

InsightCloud® Care for Azure is a market-leading solution for optimizing Azure® acquisition, consumption and spend.

InsightCloud Care for Azure Essentials

- Acquire Azure through InsightCloud Care for 3.95% off MSRP for consumption.
- Receive concierge support and best practice recommendations from your Cloud Success Manager — tagging, policy creation, portal training and security.
- Access Insight's Cloud Commerce Portal for purchasing, reporting and invoicing.
- Establish consumption and cloud spend budgets and alerts for early warning of unexpected and unusual spend.
- Leverage 24/7/365 break-fix technical support and troubleshooting backed by Insight's Premier Support agreement.
- Receive Azure advisory services from cloud experts.

Managed Azure

Let Insight manage your Azure environment.

- Monitor: Ensure 24/7 platform, system and workload availability.
- Manage: Workloads are up to date and operating at peak performance.
- Secure: Workloads and data are inspected and protected.
- Optimize: Provide visibility to and control of Azure costs.

Available at 30% of monthly consumption, one-year commitment

Best-in-class service
