

Solution Brief

Insight Managed Endpoint

Employees today require the ability to work from any device, anywhere, anytime. The challenge for businesses is providing such capabilities while being mindful of costs and resources. It isn't easy to secure the upfront capital and resources needed to implement an endpoint management solution. Recruiting and maintaining a knowledgeable staff to administer and support increasingly complex environments is also difficult, particularly as an organization scales.

Insight's Managed Endpoint service offers a modern and cost-effective approach to the administration and support of your new or existing endpoint management solution.

Regardless if your device is Windows®, Windows 365™ virtual PC, Mac®, iOS® or Android, Insight has the expertise to administer and support your endpoint management environment to help you optimize IT resources, maximize performance and ensure employee satisfaction.

Unify devices, improve performance and simplify management.

Insight's Managed Endpoint service allows you to refocus your internal resources on critical business needs while Insight ensures the performance of your endpoint management solution against specific and measurable targets.

Insight's Managed Endpoint provides:

- 
 Evaluation of your existing endpoint management solution environment
- 
 Configuration of a cloud-based endpoint management instance
- 
 Optional implementation, configuration and ongoing administration of Windows 365 virtual PC with Microsoft® Endpoint Manager
- 
 Migration from legacy on-premises SCCM infrastructure
- 
 Expert ongoing administration of the endpoint management environment
- 
 24/7 admin-to-admin support for Microsoft Endpoint Manager, VMware Workspace ONE® and Jamf® Pro
- 
 Regular reporting, service reviews and roadmap development

Benefits

- + Modernize and maintain your endpoint management solution.
- + Maximize the Return on Investment (ROI) of your licenses and infrastructure.
- + Reduce cost complexity with per-device monthly billing.
- + Optimize performance with 24/7 administration and alerting.
- + Refocus your IT team on strategic business objectives.
