

Secure Military Mobility

Solving connectivity challenges with 5G solutions

Operational challenge

Keeping mobile units connected during combat, surveillance, reconnaissance and more is imperative to saving lives and completing a successful mission. But, large staging areas cause time-consuming logistical challenges that are sometimes too great and costly to maneuver.

Our solution

At the Quantico Cyber Hub, Insight Public Sector identifies vendor-agnostic 5G solutions that improve and secure military mobility and integrate with your current technologies. We develop practical use cases and guide military IT teams through development processes to achieve mission goals.

Insight Public Sector provides real-time, end-to-end solutions that connect personnel, include environment investigation, architecture evaluation and network solution implementation planning.

Our network security solutions include:

- Zero Trust architecture
- Geofencing
- Digital exhaust
- Comply to connect
- Electronic Warfare (EW) counter-efforts

Cutting-edge mobility solutions

The Quantico Cyber Hub is a vendor-agnostic center of excellence focused on solving your most critical IT security issues. Leveraging high-powered wireless technology, we reimagine what's possible through research and innovation.

Why Insight Public Sector

- **Decades of experience**
We've transformed IT service delivery, operations and resources to meet public sector challenges for more than 30 years.
- **Deep expertise**
Our 1,500+ service professionals carry more than 3,000 technical certifications, which include all major networking and security technologies.
- **Focused on our clients**
Our team is made up of sales executives, architects, engineers, analysts, project managers, specialists and field professionals who provide end-to-end support.

Insight 5G lab demos and partners

Stay connected at any time, from anywhere.
